

Proceeding: 04-233

I am an avid listener of K-Love and would like to express my disapproval of the new broadcast service LPFM. I am concerned that I would no longer be able to listen to my favorite radio station, K-Love.

K-Love is the only station I can tune into and not worry about what my children may hear when riding in the car. They will always hear uplifting programming on K-Love. My children also enjoy singing along to their favorite songs on the radio. In addition, the messages they hear are consistent with our faith in Jesus Christ.

K-Love is not only a great source of uplifting music but also a vital ministry to our community. Without K-Love's ministry and outreach to our community I am afraid that many hurting people would be without another resource to help them through difficult times in their life.

The services provided by K-Love serve the public interest by offering programming that are not detrimental to our children and society. K-Love's programming ensures that women are not degraded in lyrics, that violence is not glorified in lyrics, that drugs are not glorified in lyrics and many other social ills that are represented in other types of programming and the banter of DJ's.

Don't take away our K-Love. Please do not expand the LPFM service that would jeopardize our family's radio station.

Thank you,

Lisa Humphrey
